## EVALUATION ADAPTATION

This adaptation must be coincident with that published in the Degree/Master webpage as well as in the online Moodle platform of the course.

Instrument for evaluation	Moodle Tool	Percentage
Exams	Questionnaires	16.67%
Memory / Practice Report (continuous evaluation)	Tasks	25%
Practical assumption / clinical case discussion / scientific work discussion (continuous evaluation)	Tasks	25%
Real and / or simulated task execution tests (continuous evaluation)	Questionnaires	33.33%
<b>Total (100%)</b>		<b>100 %</b>

### General clarifications on instruments for evaluation:

The questionnaires to be taken in the final exam will correspond to Practices 1 and 2, already completed when online teaching began. No minimum marks is needed as the average is equal to or greater than 5.

The grade of "Not presented" will correspond to the student who has not taken part in different evaluable activities whose contributions to the final grade amount to more than 50% (Art. 80.4 of the Regulations for the Academic Regime of Degree Studies).

## ADDENDUM TO THE COURSE DESCRIPTION

The student who has participated in assessment activities other than the final exam whose accumulated contribution to the final grade exceeds 50% and has not attended the final exam of the subject will record "Not presented" in the provisional publication of the ratings.

If during the review process, the student does not express his/her disagreement with that grade, it will be consolidated into the final grade for the course. Otherwise, you must notify the teacher and the final grade would be the contributed sum of the scores achieved in all the assessment methods to which you have attended according to the criteria established in this addendum.
